

Instructions for Setting up Email on iPad, iPhone, Android Plainview ISD

1. Set up a new email account
2. The type is usually called Exchange or Corporate
3. Many devices will auto configure when you type in your email address and password.
4. If they do not auto configure, some server and domain information you may need is listed below.

Server: `webmail.plainviewisd.org`

Domain: `plainviewisd`

Check the box that says require ssl or secure connection

Account: `first.last` (same as your account info for your network login)

Password: network password

Sometimes there is no separate domain field and the username is entered as
`plainviewisd\first.last`
